## What Does This Mean?

Currently your school meals are provided by an external catering company. The decision has been made to bring the management of school meals back in house here at St Mary's. This move will enable the school and you to have more autonomy over school meals to ensure your children are getting the best meal possible.

We believe having control over our own menus and cooking our own school meals will enable us to provide a better lunchtime experience for your child. Meals will be produced fresh on site daily by our school catering team.

We have attached a copy of our menus for you to take a look at. Our menus are well balanced, exciting and focused on great value, healthy, hearty meals for your children.

We would love as many pupils as possible to join us at lunch time in eating a warm meal from our kitchen. If your child is not currently on school dinners and you would like to give them a go please take a look at the School Grid meal ordering guide.

## Meet Cheryl

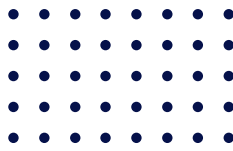

“Hi, my name is Cheryl. I am your school cook here at St Mary’s . I have worked in your school kitchen since 2024.

We have worked hard to put together a menu that we think your children will enjoy, one that will provide them with the fuel they need to get them through the school day.

We love to hear your thoughts and feedback on the food we serve, please do email the school office if you have any thoughts or feedback on our school meals.”

# Meal Ordering

From 1<sup>st</sup> March the way you order your child's meals will remain through School Grid. The system is being migrated over to the school and our new menus will be available for you to see. You will continue to access your account in the same way.

Please scan this QR code to find a guide to school meal ordering on School Grid. If you encounter any problems with school meal ordering, please contact the school office.

## School Grid Ordering

If you have any questions, please do not hesitate to contact our school office team.
